Illumination Control Fixture Whip In 3/8" Flexible Metal Conduit

Smart Buildings are becoming more intelligent, and its integrated, network-based architecture is designed to self-regulate the building's environment and operations, including the lighting systems. When combined with the installation of LED luminaires, this combination has become the new standard for a variety of lighting system control options.

The key integrating component is Engineered Products Company's prefabricated Illumination Control Fixture Whip in a 3/8-inch conduit configuration. This is the most suitable and bridging component in the market to manage lighting systems control inputs for LED luminaire's low power amperage and voltage draw.

Attributes

- Manufactured using 3/8-inch flexible metal conduit (FMC) for 120 or 277-volt lighting systems. Includes the purple and pink jacketed control conductors.
- Includes two (2) 90-inch jacketed 18 AWG NEMA standard illumination purple and pink lighting control conductors.
- An integral power and lighting control component for new or retrofit LED-based lighting systems.

Benefits

- LED luminaires draw lower operating amperage and voltage to energize LED luminaires.
- Our 3/8" Illumination Control Fixture Whip use 18-gauge, 300-volt rated conductors designed to energize and provide illumination control of LED luminaires.

and Lock Nut

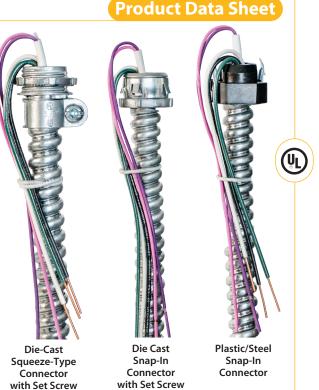

Meets the requirements of the 2023 National Electrical Code: Articles 300.3(B)(2), (C)(1), Section 725.136(I)(1), and 725.139(A) through (D)(1) and California Title 24 Lighting Controls, Articles 130.1(A)(B)(C)(D)(E).

Features

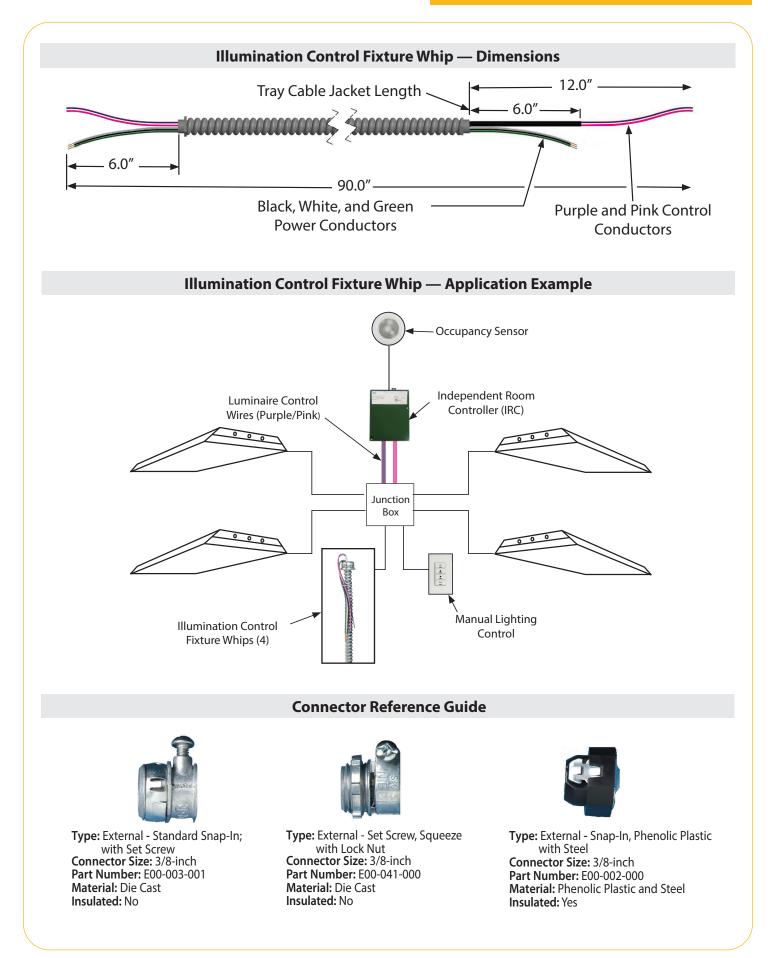

- Use to control the lumen output of the luminaire controls for daylight harvesting, occupancy sensors, or light timing controls.
- Select from the following "external" connectors:
 - Die-Cast Snap-In Connector w/Set Screw
 - Phenolic (Plastic and Steel) Snap-in Connector
 - Die-Cast Type Connector w/Set Screw and Lock Nut
- Custom color configurations available.

Note: Each 3/8" ICFW includes two (2), 18 AWG stranded wire, NEMA standard purple and pink illumination control conductors.

UNITS OF MEASURE KEY

Order Unit: The Unit to be ordered; Order Qty: Number of pieces in each Unit; Unit Pkg: Packaging types - BG (Bag), BX (Box), BRL (Barrel); Units/Case: Unit packages contained in the Case; TL Case Qty: The total number of items in each Master Case; Min Order Qty: The smallest Unit that can be ordered; MM Req: Must order multiples of the Unit in the stated quantities; Ship Wt (Lbs): Total weight of the units per Carton
